

ABBREVIATIONS

The function of an individual in a Communist party is generally indicated in parentheses without reference to the party concerned since party affiliations are clear from the context, viz., the entry "France — Cachin, Marcel (Politburo; CC)" indicates that Cachin belongs to CP France. In the case of organizations other than Communist parties, the function and organization are given in order to avoid confusion, viz., "Yugoslavia — Salaj, Djuro (Pres., United Trade Unions)."
